GENERAL INFORMATION

Collector plates are non-expiring for as long as you own the collector vehicle.

A vehicle with Collector registration may not be operated during the month of January unless the owner obtains a temporary operation permit. Temporary permits are available for \$5 for 5 consecutive days or \$30 for the month of January.

To qualify for Collector plates, you must have at least one other vehicle used for regular transportation and registered with regular plates.

For second or subsequent plates, allow approximately 4-6 weeks for the manufacturing process after the new title has been issued.

By state law, Collector plates CANNOT be personalized.

Truck type vehicles with collector plates cannot haul more than 500 pounds. To determine the approximate weight, use the weight of the vehicle, full tank of gas, and equipment normally on the vehicle. The weight does not include the weight of a camper, lid or cap that is mounted on the truck or the weight of any persons or pets riding within the driver's compartment.

To legally operate your vehicle you must display license plates within 2 business days of purchase. If you do not have current plates, apply to a DMV Service Center or an agent authorized by DMV to obtain a temporary plate while your Collector order is processed. An agent may charge a \$3 plate fee and/or may charge a \$5 service fee.

NOTE: Street modified vehicles, replicas, homemade motorized vehicles or vehicles that have been altered or modified from the original manufacturer's specifications do NOT qualify for Collector plates. If the vehicle you wish to register is one of the above, contact the Special Plate Unit for form MV2388, Hobbyist Registration Application.
